In the framework of the implementation of the *Greek Action Plan- Compliance in SBS as regards SU*, work is in progress for the identification of large and medium enterprise groups active in Greece, as well as the of the legal units belonging to large domestic enterprises. The next step is to combine the legal units into enterprises.

## IV. Main challenges

Please list main challenges (maximum 3) with respect to development, maintenance and use of your statistical business register. Also, please classify them according to the categories within each drop-down list

1. Main challenge 1	(Category)	
Completeness and quality of administrative data	4. Data sources	
Description of the challenge		
Some problems have been detected in the tax data transmitted their timeliness and to the classification of the legal units in the		
2. Main challenge 2	(Category)	
Coverage of all types of institutional units	2. Coverage	
Description of the challenge		
The information provided, until now, from the administrative sources is not sufficient for the coverage of all types of institutional units. More sources should be investigated and more information slould be obtained for the coverage of missing values and for the classification of all legal units included in the SBR to institutional sectors.		
3. Main challenge 3	(Category)	
Delineation of enterprises and enterprise groups.	3. Units	
Description of the challenge		
The delineation of enterprises and enterprise groups requires detailed information regarding the relations between the legal units. In some cases profiling is needed in order to delineate large enterprise groups.
