IV. Main challenges

Please list main challenges (maximum 3) with respect to development, maintenance and use of your statistical business register. Also, please classify them according to the categories within each drop-down list.

1. Main challenge 1 (Category)

Description of the challenge

The main challenge will be to implement a new statistical ID (and all related functionalities of S_BR) in the statistical processes (not only for business statistics domains) and to start a new era in this respect. In our office the common administrative ID for legal units was used as main ID for almost 40 years. With the new S_BR this administrative ID is not a primary key anymore, but it gets a new function - it started to be a variable - a link with administrative sources.

2. Main challenge 2
