

One statistical business register for Statistics Netherlands and the Dutch Central Bank

Session 2 - Innovation in Statistical Business Registers

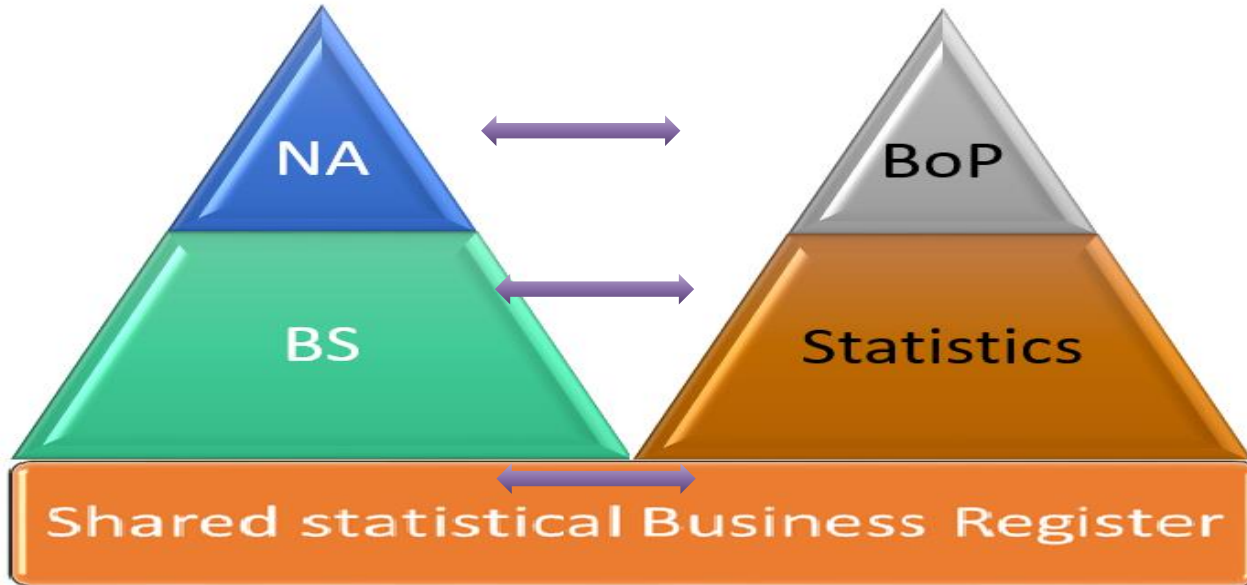

Barry Coenen

24 September 2018

Problem

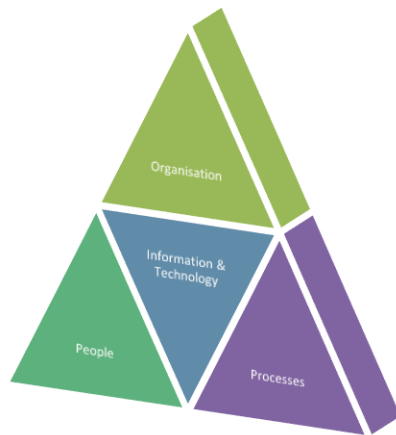

1. Macro economic statistics not (fully) coordinated
 - Different (adm) sources
 - Different methodologies
 - Different timing aspects
2. Sharing information late in the process
3. Solving problems expensive

Working towards

Business change

What do we need to change to support CBS and DNB in sharing one business registers which would serve the individual statistics?

1. IT & information
2. Organisation
3. People
4. Processes

Information and technology

Information (concepts and methodologies)

- *Enterprise vs institutional unit*
- *Shared profiling process*
- *Treatment of financial parts in non financial enterprise groups*

Technology

- *New access to SBR for DNB employees*
- *Secure transport of data*
- *Using DNB data for updating SBR*
- *Designing templates for sharing information*

Processes (1)

Data quality management processes

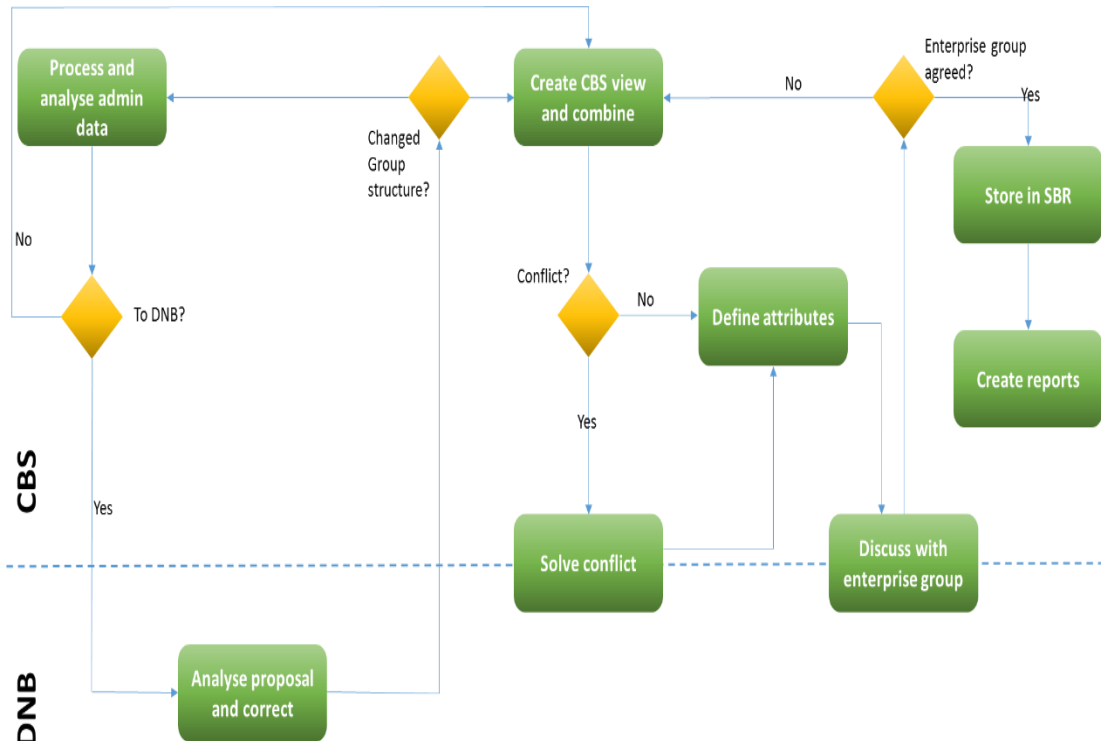

- Using DNB information in SBR
- Assessing quality SBR

Elaborated more in detail

- Shared profiling
- Chain management

Processes (2)

Shared profiling

- *New groups*
- *CBS provides first view*
- *DNB creates their view*
- *Confrontation and solving problems*
- *Discussion with enterprise group*
- *Registering in SBR*

Processes (3)

Chain management process

In a world which becomes more and more **complex**, chain management works **together** on a CBS-DNB chain which results on an **efficient** way in **reliable** and with **high quality** national economical statistics **informed** our society.

Future

- *Clear vision and strategy*
- *Supported by chain members*

Transparency

- *Knowing and understanding eachother*
- *Identifying concerns and risks*

Together responsible

- *Collaboration*

Help and learn

- *Understanding other needs and processes*

Organisation

1. Confidentiality of SBR data needs to be assured
2. Access rights to SBR
external CBS access to SBR
3. DNB from experts per domain to one contactperson per group with different activities
4. Visiting enterprise groups
 - a. Together?
 - b. Who is in the lead?
5. Expert meetings DNB and CBS
 - Sharing experiences
 - Best practices
 - Discussing cases
6. Responsibilities

People

1. Understanding needs CBS and DNB
2. Visiting each other
3. Learning new skills
 - Financial, economic, statistical (profiling) etc

Conclusions

1. Easy goal
2. Long way to go
3. Small steps
4. Transparency

Future challenges

1. Improving DQM process
2. Commitment from management
3. More dependencies

Facts that matter
